

UNITED STATES DEPARTMENT OF AGRICULTURE,
BUREAU OF ENTOMOLOGY,
WASHINGTON, D. C.

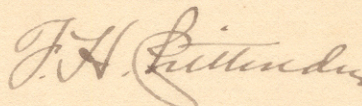

October 4, 1906.

Dear Sir:

I am sending you under separate cover the set of biting Diptera which Doctor Howard has promised you. There is a very considerable series of Ceratopogon, Simulium, and Tabanus, as also a few other genera, all properly labeled. I also send in two separate boxes seventeen species of Ixodidae--two from the West Indies, and the balance from the United States. Names and localities are in the vials.

Trusting these will be of value to you in your studies, I am,

Yours sincerely,

Acting Chief of Bureau.

Dr. A. Lutz,

Bacteriological Laboratory,

Sao Paulo, Brazil.
