My Dear Sir:

I send you with this Mr. Coquillett's report upon the Diptera which you sent some time since. I am also sending you a box of specimens which I trust may be of some interest to you. You will notice that we mount insects on a rather different plan, and I think if you will familiarize yourself with our method that you will find it vastly superior to the English method.

Wishing you success in your work,

Yours most truly,

*L. O. Howard*
