

UNITED STATES DEPARTMENT OF AGRICULTURE,
BUREAU OF ENTOMOLOGY,
WASHINGTON, D. C.

January 9, 1907.

My Dear Sir:

I have your letter of December 3, addressed to my assistant, Doctor Chittenden, and referred to Messrs. Banks and Coquillett for attention in regard to the Diptera and ticks which you mention. Mr. Banks will be glad to obtain additional ticks, in fact, all that you can send to us, and Mr. Coquillett says the same in regard to the Diptera, provided they are in perfect condition. We will be glad to continue correspondence with you in regard to these classes of insects.

Yours very truly,

L. Howard
Chief of Bureau.

Dr. A. Lutz,
Bacteriological Laboratory,
São Paulo, Brazil.
