

S. Paulo, Febr. 24th, 03

L. O. Howard, Esq., Entomologist
U. S. Department of Agriculture
Washington

Dear Sir,

By this mail I forward to you 4 copies of a paper on wood-boring beetles and - malaria which I beg to accept for the department, yourself and any person or institution interested in the matter. I could send you some more if you wished it. I shall always be extremely pleased to receive any publication referring to entomology, as well economical as otherwise, and glad to exchange specimens principally of stinging and blood-sucking diptera of which I have readily collected about a hundred Brazilian species.

Yours truly

S. Adolpho Lutz
Dir. of State Bact. Institut.
